Post if it looks like screen shot. Mock up page looks odd, but I suspect just a viewing error.

Jeff:

Can we post photos to the website homepage and spotlight them? If not, please post with link immediately.

Also, please change title of the "Watershed Fact Sheet" so people know it's history of mining on the Upper Animas. Call it: "History of the Gold King Mine."

The photos page needs to be linked on GKM home.

I suggest a bullet "Photos" under "Data and Information" section.

OK?

He didn't get to the photos.

Jeff will be in today and should be able to.

Hi All - we are awaiting a slideshow of EPA photos to be posted. Hopefully they will be posted by this morning. Those are the photos that have approval to be public. Would rather use EPA photos than the sheriff office's photos. I'm checking in why the slide show hasn't been posted yet - it was supposed to be posted last night.

So please hold

Thanks

Paula, can you pick a couple good ones that tell the story and get some solid, well written captions? and we'll get them out on multiple channels.

If we can have 2 versions of the captions - a short Twitter version (115 characters or less) & a longer version to use on Facebook, Flickr, Instagram, & Pinterest - that would be great.

We should also pick 2 of the best for Instagram.

**Subject:** Captioned Saturday Animas River Recreation

My apologies to those of you who may have received these photos earlier today. These have captions on the photos themselves with date and location.

Since there are 8, I reduced file size for e-mailing. If any of you need higher resolution versions, e-mail me back and tell me which ones. The originals run from 3MB to 5MB each.

Also, let me know if you want the captioned or non-captioned version.

It is 2:40PM Saturday. I will be in the field for the next 2-3 hours so won't be able to send you larger file size versions until after that.
